German shipments of Gold to Spain

Please refer to memoranda dated 26 February, 6 March and 14 March 1946 concerning shipments of German gold from Switzerland to Spain and Portugal.

The following information about shipments of Gold to Spain has been provided by Johannes HENNHARDT, managing director of FINLU, the German holding company in Spain.

Early in 1943, HENNHARDT received from Germany secret shipments of gold, estimated at about three to four tons for the specific purpose of conversion of this gold into Swiss francs.

At about the end of 1942, according to HENNHARDT, the Banco Exterior had exerted pressure on the Spanish Government not to permit further advances to Germans, in view of the heavy German commercial deficit. The Germans thereupon deposited gold in Switzerland for the purpose of guaranteeing credits advanced to this in Swiss francs or the equivalent in Spain. Later on—that is, from December 1942 to early 1943—the Germans shipped from nine to ten tons of this gold to Spain.

Interviews with Johannes HENNHARDT are being continued, and further developments will be reported.
